

COMMISSIONER JANE HENNEY
DOCKET #OOP-1211/CP1
FDA Dockets Management Branch (HFA-305)
5630 Fishers Lane, Room 1060
Rockville, MD 20852

Dear Commissioner Henney:

We are calling for a moratorium on all genetically engineered foods and crops unless adequate safety testing proves they are safe for human health & the environment. The FDA should respond to the legal petition (Docket #OOP-1211/CP1) filed on March 21, 2000 & require all GE (genetically engineered) foods to be labeled and safety-tested. In addition, we encourage you to begin the phase-out of industrial agriculture by banning the most dangerous pesticides as well as hormone implants, antibiotics and rendered animal protein in animal feed.

Ban corporate feedlots and intensive confinement of farm animals. In addition, implement a long term "transition to organic" program to convert agricultural production in the US from chemical-intensive, industrial farming to at least 30% organic by the year 2010.

Thank You ...

Sincerely,

Name

Kalila Volkov

Address

2884 Burton Grade

City Cambria

State

CA

Zip

93428

I am
particularly
concerned about
labeling. I want to
know what we're eating
